# DMD Data Systems Named 2010 Overall Small Business of the Year

The DMD Data Systems team accepted the 2010 Salute to Small Business OVERALL Small Business of the Year Award during an awards luncheon on November 5th. (Photo by Bill Straus Photography)

Commerce Lexington Inc. began a new era on November 5th for its annual small business recognition program with a revamped format that includes more awards, more winners, more eligible local businesses, and the opportunity for further recognition on the state and national levels. At the **Salute to Small Business Awards Luncheon presented by Cumberland Valley National Bank and Trust**, the business community recognized small businesses in a variety of categories that include green initiatives, innovation, longevity, minority business, non-profit, young entrepreneur, and more.

From the eight individual award categories, an Overall Small Business of the Year was chosen, and that company will be submitted by the Bluegrass Small Business Development Center for state and national recognition through the U.S. Small Business Administration.

Commerce Lexington Inc. is pleased to announce that **DMD Data Systems, Inc.** was named the **2010 Salute to Small Business Overall Small Business of the Year**.

Founded by Dave Sevigny, DMD Data Systems is a 14-year old employee-owned Kentucky small business serving the Lexington, Louisville and Frankfort areas. The DMD team's expertise in consolidating technology and ensuring business continuity helps medium-sized and large organizations in education, state and local government, healthcare, and the private sector perform better.

DMD's uncomplicated approach to technology, service excellence, an employee-friendly business model, and its corporate social responsibility practices have contributed to exceptional revenue growth that has twice landed it on the Inc. 5000 list of fastest-growing private companies, as well as the Computer Reseller News (CRN) Fast Growth 100 list.

DMD Data Systems recently positioned itself for more long-term success by investing in its own Commonwealth of Kentucky Technology Innovation Center (CoKTIC) in 2009. This Center is the only one of its kind in Kentucky and provides a multi-million dollar hardware

and software platform and facility in Frankfort, which enables the Commonwealth of Kentucky access to all of the most current and relevant technologies for local constituents to sample in a risk-free environment.

DMD founder and president Dave Sevigny said the award is a result of an innovative approach and a great team. "Our business is built on the principle of shared ownership. An engaged and incentivized team can accomplish a great deal, as our service record and rapid growth indicate," Sevigny said. "We're honored to be recognized in this way and applaud all the award winners."
